THE DAILY SENTINEL Will be mailed to you at your Summer Resort for 10 cents per week.

ESTABLISHED 1833. THURSDAY, AUG. 5, 1897. PRICE TWO CENTS.

A picturesque summer girl looks coquettishly from the first page of August FASHIONS, her dainty wrap and hat giving a hint of the early fall styles, with their combinations of silk, chiffon, feathers and flowers. The fashion plates are numerous and elegant, showing gowns, suits and millinery for all occasions, not only for the older members of the family, but the tiny tots as well. Especially beautiful is an elaborate garden party gown from Redfern, while less complicated costumes abound for the benefit of the home dressmaker. The Paris letter and other fashion articles give the latest information regarding colors, fabrics and caprices of the moment.

The full page art picture, a feature highly prized by subscribers who wish to make a collection of copies of noted paintings, is this month by the artist Luke Fildes, R. A., and represents "An August Day in Venice."

Every reader of FASHIONS who is musically inclined will be delighted to find the "Cuckoo Polka," a bright and catchy composition, written especially for FASHIONS by Harry Zickel, the author of the famous "Black America March," of which 200,000 copies were sold in one year. Combining brilliancy of effect with ease of execution, it is sure to make a hit. In length it is equal to the 40c pieces sold at the music stores.

## MINERS WILL MARCH

### On the Mines in Central Pennsylvania.

The Strikers Elated at Their Success in the DeArmit Mines—Storm Creates Consternation.

PITTSBURG, Pa., Aug. 5.—The strikers are preparing to march on the mines operating in West Moreland country and central Pennsylvania. An advance guard will probably start for Irwin today, where a camp will be established. Other bodies will follow tomorrow and Saturday, the advance guard simply being a silent notification that the men are coming. By the first of next week, when the strike leaders say they expect to have all the New York and Cleveland company's mines closed tight, the strikers at Turtle Creek, Plum Creek and Sandy Creek will move on into the West Moreland field and locate camps at the different mines there. All of the West Moreland county mines are running and it is to stop the putting of coal into the Pittsburg market from these mines that the move is contemplated. The managers of the West Moreland Coal company state they will not treat with the strikers but are ready for them. They will be treated as trespassers. The men at work for the Pennsylvania Gas Coal company are in the same position, and the company will use the same tactics. There is an agreement between DeArmit and the West Moreland company, and the former ships west only, the latter east. If the strikers are successful in causing a suspension of work at the West Moreland mines the march to the central Pennsylvania fields will be taken up. The miners in this district are in sympathy with the movement and at a convention of Clearfield and Jefferson county miners yesterday, the strike leaders were requested to give some attention to central Pennsylvania with a view of holding a general convention of all miners shipping coal to the east seaboard.

RAIN AND LIGHTNING CREATE HAVOC.

PITTSBURG, Pa., Aug. 5.—Consternation was caused in the miners' camp last evening by a terrific wind and electrical storm, which passed over the Turtle Creek valley doing a great deal of damage. At Sandy Creek a tree in the yard of the Jefferson school house under which was a group of striking miners who are in camp at that place keeping a watch on the DeArmit mines, was struck by a bolt and shattered into matchwood splinters. Two of them, Vincent Ordie, from the Essen mine No. 3, and George Sedwick, from the Moon Run district, were shocked into insensibility. Their condition is still critical. Six others were also shocked and badly frightened, but soon recovered. The occurrence caused the wildest excitement among the striking miners. The storm came upon them without warning, and there was a wild scurry for shelter, of which there was none at all except that afforded by their small tent and the trees. As soon as it was seen that two of the men were in a serious condition several of their comrades were dispatched for medical assistance, while others carried the two stricken men into a near by farm house, where they were later attended by Dr. Wilson, of Rodi.

When the storm came up, many of the strikers forgetting that they were going onto the company property and into the company of deputy sheriffs, took refuge in DeArmit's stables, where the deputies are quartered. They were not discovered until the storm had passed, and they were immediately ordered away.

The strikers are jubilant over their success at DeArmit's mines. The total output yesterday was eighteen gondola cars. Superintendent DeArmit says the Plum Creek output on Tuesday was thirty cars, ten more than the mine was given credit for by the strikers. Col. A. E. McCandless, surgeon-in-chief of the Pennsylvania National Guard, and Col. A. U. Logan, quartermaster-general, on the staff of Gov. Hastings, were in Turtle Creek to-day. It is said that they were looking for a suitable site for camp in case the troops should be called out. Colonel McCandless refused to affirm or deny that he was in the district in connection with the inquiries being made by the governor. At the present time there is absolutely no need of troops, as the sheriff has his men well in hand, and the strikers are disposed to keep strictly within the bounds of the law.

President Dolan has announced that the next demonstration at camp Determination will take place Saturday evening. It will be a record breaker. All of the steel workers from Homestead and Braddock will be present. Plans are being matured for the strikers to march to Braddock and there meet the visiting contingent with their brass bands, etc., and march back, gathering up recruits all along the route. In this way they expect to bring in the camp such a crowd as has never yet assembled about the speakers' stand. At least 4,000 are expected from the two towns on the Monongahela.

QUIET AT PLUM CREEK.

The situation in and about the DeArmit mines has not changed materially since yesterday. The Plum Creek mines are more closely guarded by the strikers, and they have succeeded in still further reducing the number of diggers and slowly but surely decreasing the output. Today it was said that 255 men were at work in the Plum Creek mine. Ten diggers, two day men and three drivers, who attended a meeting, agreed to join the strike. Everything is quite today. The campers at Plum Creek secured a dancing platform near Center this morning and are encamped there. It is owned by J. Viesmaki, a miner in the employ of the New York and Cleveland Gas Coal company. Coffie and Sedwick, the two men injured by lightning last night, will die. The others will recover.

NO TIE UP AT FAIRMOUNT.

WHEELING, Aug. 5.—At Fairmount, the tie-up promised by Organizer Rae, has not materialized, and aside from a few men at Clarksburg, there are no additions to the strikers. In Kanawha valley, all but one mine are working. On the Norfolk and Western, the strike has entirely disappeared. Miners' day is being celebrated by laboring people generally in Wheeling and vicinity.

The eastern Ohio miners are getting hungry and have soliciting committees out with wagons securing food. The people are contributing liberally and Secretary and Treasurer Lewis thinks they can hold out another month at least.

CLEVELAND, Ohio, Aug. 5.—Cleveland coal men are viewing the coal strike situation with much apprehension. They are deeply interested in the mass meeting to be held in the Clearfield district in Pennsylvania, which the strike has not reached. Advices in Cleveland are to the effect that DeArmit's mines are paralyzed and the feeling is here that there may be an absolute tie-up. Resumption of work by several of Cleveland's large manufactories will rapidly decrease the supply of coal in this city and much alarm is felt. The Cleveland rolling mill and the Union rolling mill, which have resumed, are using 600 tons of coal per day.

## CARR CAPTURED

### But Not by the Police Who Hunted Him.

The Man Who Assaulted Little Rosie Simmons Was Never a Mile From the Scene of His Crime.

WASHINGTON, Aug. 5.—After a week of useless searching by the police James Carr, a young white man, who assaulted little Rose Simmons, an eleven year old white girl, was this morning captured by private citizens. The case has attracted much more than ordinary attention here on account of the laxity of the police in arresting Carr. He is the third perpetrator of a serious crime who has slipped through the fingers of the police in the second precinct within the past three months. Carr was located last night by some citizens. He was hiding in the attic of the house within a few squares of where his crime was perpetrated and where the police have looked for him three different times. When discovered he was chased by a crowd of citizens, but made his escape, assaulting a woman and knocking down a man who tried to stop him and getting away before the police arrived. The whole metropolitan force was in a turmoil last night and drafted every available man on the work. Carr was not discovered, however, till early this morning, when he sneaked out of a stable where he had been hiding and went to the house of a man named Fowler, whom he knew, and begged for a woman's dress to disguise himself. Fowler told him to go back to the stable and hide till the dress could be gotten. When Carr was gone Fowler sent out an alarm, and going to the stable in company with a muscular cabman named Beecha, the two of them overpowered Carr after a fierce fight and turned him over to the police. The methods of the police in this case have aroused the district commissioners to a thorough investigation of the police department and a reorganization is looked for.

## G. A. R. NEWS.

### The Grand Parade Will Line Up 32,529 Veterans.

The Chicago Great Western Road Has a Sensational Cut in Rates to Buffalo.

BUFFALO, N. Y., Aug. 5.—Information received by Secretary Turner, of the Citizens' G. R. committee, 32,529 veterans will participate in the grand parade during the national encampment. New York heads the list with 5,000 veterans. Pennsylvania follows with 8,000, while the estimates from Illinois, Ohio and Massachusetts are 5,000 each. The state of Maine will march in the order of its organization, with the exception that New York will bring up the rear out of courtesy to the post.

CHICAGO, Aug. 5.—The Chicago Great Western road announced today that it will make a $4.50 rate from Minneapolis and St. Paul to Buffalo and return for the Grand Army encampment, which is on the basis of one cent per mile, and is a cut of $4.50 in the agreed rate. The cut will doubtless cause much disturbance in rates throughout the territory.

## WEDDING FROLIC

### Ends in the Death of the Groom and Three Guests.

They Were Suffocated by Smoke—Ten Kegs of Beer and Numerous Cigarettes Came the Accident.

CINCINNATI, O., Aug. 5.—Four people were suffocated about 3 o'clock this morning, in a two-story frame dwelling consumed by fire on Elm street, opposite Charles street. During the fire a gasoline stove exploded. The names of the victims are:

EZRA BERGE.
ARTHUR GUTH.
NELLIE BENNETT.
ROY COX.

Otto Adler kept an all night restaurant in the lower story of the house. There were seventeen men and women in the second story. None of the dead were burned. They were suffocated by smoke from the fire in adjacent rooms. The only exit for escape was blocked by a bath tub set up on end, at the head of the stairway. The smoke came from an adjacent room where the fire was soon extinguished. It seems that it was a wedding frolic, in which Guth, one of the dead men, was the bridegroom, and the daughter of Landlord Adler was the bride. The celebrants of the wedding used beer and cigarettes very freely and it is supposed cigarettes started the fire and that beer caused the somnolence with which the upended bath tub were indirect causes of so much fatality. While four out of the seventeen in the room were suffocated fatally, the other thirteen suffered but slightly.

## ABOUT TIN PLATE.

### The American Product Crowds Out the Foreign.

Importations From England Have Fallen off One-half Since the Past Two Years.

WASHINGTON, Aug. 5.—Consul Parker at Birmingham has furnished the department of state with a copy of report made to the British ambassador, Sir Julian Pauncefote, by Hugh J. O'Beirne, his second secretary, containing a review of the growth of the tin plate industry in the United States. It shows that the tin plate sales from England have fallen off one half since the McKinley tariff act was passed and all the American production is steadily increasing. It is claimed by Mr. O'Beirne that the slight increase of rates in the present tariff law over those in the Wilson law will give the United States manufacturers the California markets, which were heretofore supplied from England.

Enclosed with Mr. Parker's report is an editorial from the Daily Birmingham Post commenting on the report and reviewing the tin plate trade since the McKinley law of 1890. It is claimed that the only market England can now obtain in the United States is by the drawbacks which the canners of export goods receive.

### TERM OF TREASURERS.

The Governor Takes His First Action Under a New Law.

INDIANAPOLIS, Aug. 5.—Governor Mount yesterday took his first action on the new law which extends the terms of office of some of the county treasurers. The governor holds that the law is illegal in that it unconstitutionally extends the term of an elective officer for more than four years. The law held that all county treasurers should, on and after January 10, 1898, begin their terms on January 1 in order to have uniformity. As at the present time the terms of a number of the county treasurers expire along in August and September, the law gave them in effect three and four months of office.

In Bartholomew county the term of the county treasurer expires on August 10 and the county commissioners, refusing to allow the present incumbent to hold over, appointed Henry W. Rothwick. The governor was asked to name the commission and did so. Although he did so merely as a ministerial officer, yet he is of the opinion that no statute can extend the term of any elective officer for more than four years.

### BIG DEAL.

The Southern Pacific Buys Land for Dock Purposes.

LOS ANGELES, Cal., Aug. 5.—The Pacific Improvement company, representing the Southern Pacific Railroad company, has bought 180 acres of land overlooking the proposed breakwater at San Pedro. This new purchase of the improvement company is a trifle less than a quarter of a tract which is held by the San Pedro Harbor Dock company. By this purchase of the land the Southern Pacific will have splendid facilities for docks, as it is close to one of the proposed entrances to the breakwater. This deal would indicate that favorable action on the San Pedro harbor by congress is anticipated.

### MUTINY ABOARD.

Attempt to Burn a British Ship at Sea.

OAKLAND, Cala., Aug. 5.—The British ship Cumbermere, coal laden, was on fire yesterday. The fire is believed by Captain Bernard to have been started by friends of Near, the East Indian who stabbed Bernard. The flames spread rapidly and did great damage, almost destroying the vessel. It is said the fire is a sequel of the stabbing affray. Some of the crew are now in irons, accused by the ship officers of starting the blaze.

## JAPS MUST GO.

### No Use for Them on the Island.

Hawaii Looks to America and Germany for Men Who Will Aid in Developing That Country.

SAN FRANCISCO, Aug. 5.—The news that Hawaii has virtually excluded the Chinese is confirmed by Honolulu advices brought by the Australian. When the annexation proposition was made to the United States one of the principal clauses was that Chinese immigration should cease. As a start in this direction the Hawaiian government has decided to issue no more six months residence permits to Chinese or to execute any bonds for contract laborers to arrive.

The planters don't fear the labor problem. In fact they are already solving it and that to the detriment of the Japanese. Recently there have developed plans for colonizing the American plantation negro in Hawaii to gradually replace the coolies in the cane and rice fields and on the coffee and cotton plantations.

The German ship, H. F. Glade, arrived in Honolulu of July 28 with nearly 200 contract laborers. They will supplant the Japanese on the sugar plantations. This crowd consisted of 115 laborers, twenty-five women and forty-seven children. The nationalities are mixed, there being many Poles and Austrians, as well as Germans. Their labors will be placed on nine different plantations, the contracts showing that the men are to be paid $14 a month the first year, $17 the second and $18 the third, in addition to the regular food and lodging given by the plantations.

## WILL SETTLE.

### The Sultan's Finances Compell Him to Act.

No Money to Continue the Bluff and He Wants Peace With as Much Grace as Possible.

CONSTANTINOPLE, Aug. 5.—The Turkish government officials are now manifesting a desire to expedite the settlement of the peace negotiations, owing to the straitened state of the exchequer rendering it impossible under the present circumstances to contract a new loan, because of the unhealthy condition of the troops in Thessaly, where many of the soldiers are dying, and for political reasons the attitude of Bulgaria, Servia and Montenegro being regarded as threatening. The Turkish minister for foreign affairs, Tewfik Pasha, replying to inquiries made by the ambassadors of the powers, has expressed ignorance of the destination of the Turkish fleet which left the Dardanelles on Tuesday last. It appears, however, that the warships are not going to Cretan waters, which is probably a wise decision upon the part of the Turkish authorities, as it has been stated that the admirals in command of the fleets of the power have decided to oppose, by force if necessary, the entry of the Turkish squadron into Cretan waters, where precautions have already been taken against such an eventuality, by the dispatch of foreign warships to guard the different ports of Crete.

## MAY BE MURDER.

### John Cartnyville Reported in a Serious Condition

And Umpire Tim Hurst, Who Struck Him With a Beer Bottle, Will be Re-arrested.

CINCINNATI, Aug. 5.—John Cartnyville, the fireman who was struck on the head with a beer glass yesterday by Umpire Tim Hurst during a game between Cincinnati and Pittsburg, is reported today to be in a critical condition. A charge of assault had been made against Hurst and he was released on a bond of $300. A new affidavit will now be filed, charging assault with intent to kill, and Hurst, who has gone to St. Louis, will be rearrested there and brought back here to answer the new charge.

### DOES HE KNOW?

A Carlist Deputy Wagers That Don Carlos Will be in Spain by 1898.

MADRID, Aug. 5.—A Carlist deputy has made a bet with a conservative colleague of 1,000 francs, the former wagering that Don Carlos will be in Spain at the head of his partisans before the end of February, 1898.

### LOCAL LINES.

Marriage licenses have been granted to Gustave A. Selle and Louise M. Ferchel; Harry E. Hibbler and Georgia A. Hite.

L. A. Crathvine went to Columbus, Ohio, last night, and today transferred Frank Bogash, the speed pacer, to his new owners. Bogash starts in the races in Columbus this afternoon.

Matthis Highland and Tom Buchanan, of Huntington, were in the city to-day. Mr. Highland is chief of the Huntington fire department, and Tom Buchanan is chief engineer of the electric light department.

## A BIG ESTATE.

### Litigation Commenced in the United States Courts.

The Heirs of the Late Charles Lux Want an Accounting—Were Not Fairly Treated.

SAN FRANCISCO, Aug. 5.—The German heirs of the late Charles Lux, of the great firm of Miller & Lux, dissatisfied with the share allowed them of the vast estate in which they are interested, have begun suit in the United States court to have the settlement set aside and ask for an accounting.

When Mr. Lux died several years ago his widow, Mrs. Miranda W. Lux, desired that the firm of Miller & Lux be wound up, but was opposed by Henry Miller, the surviving partner. After several unavailing attempts to settle the matter, suit for an accounting was begun and long and complicated litigation ensued. The case was brought to a temporary halt by the formation of one of the largest corporations in this country. The basis of the organization was the issuance of $12,000,000 worth of stock representing the immense landed properties and the varied interests of the firm. This was divided in proportion to the amounts that the different heirs were to receive by the will of Charles Lux, and the troubles of the concern were apparently at an end. It now transpires that several of the heirs, resident in Germany, don't think they have been fairly treated in the distribution of the shares of the corporation and that they have determined to fight for what they deem their rights.

## A BLACK EYE

### Given the Co-Operative Klondyke Companies.

The Decision of Insurance Companies Will Stop the Organization of Exploring Expeditions.

INDIANAPOLIS, Ind., Aug. 5.—The determination of the leading life insurance companies to carry no risks on Klondyke explorers has fallen with dampening effect on the co-operative companies which were forming in this city and upon a number of men who are preparing to start for Alaska during the coming winter. One of these companies intended sending ten representatives, each insured for $10,000 giving each man $1,000 besides money for contingent expenses, all of them to co-operate in the search for gold dividing equally with the company and in case of death, the insurance to be paid to the company. By such deal the company stood to win $8,500, on the basis that more than $1,500 would be spent on each representative.

Another company simply designed carrying sufficient insurance to reimburse for actual outlay. It is not thought that any of these companies will proceed further with the organization.

### THE BORAX KING

Will Establish a $1,000,000 Refinery Near New York.

OAKLAND, Cala., Aug. 5.—F. I. Smith, the "borax king," will establish a million dollar refinery near New York to employ 200 men. The Dingley tariff bill placed a duty of $4 a ton upon imported borax, giving Mr. Smith an opportunity to compete in New York with borax imported from Turkey and South America. The new refinery will be the principal one operated by Mr. Smith. The borax will be shipped from southern California in a raw state. It is uncertain whether or not his Alada refinery will be closed.

### ALLEGED EMBEZZLER.

Grand Rapids Bicycle Man Arrested on a Serious Charge.

GRAND RAPIDS, Mich., Aug. 5.—Chas. J. Thayer, treasurer, vice president and general manager of the Hamilton-Kenwood Bicycle company has been arrested on a capias for the alleged embezzlement of $4,000 of the company's fund, the money being taken, it is claimed, just before the company gave mortgages of $100,000 to J. Frederick Baars, as trustee. Thayer immediately began a counter suit against President Chas. R. Sligh and Secretary J. D. Case, alleging deliberate wrecking and asking the appointment of a receiver.

### HEAVY FLOODS

Do Much Damage to Property in Denver, Colo.

DENVER, Colo., Aug. 5.—The heavy rains which have fallen every day this week have caused many thousands of dollars damage in and about this city. Several bridges across Cherry Creek have been washed away. Patrick Murray, a laborer, was thrown into the creek by the caving of a bank on which he was standing to watch the flood and was drowned. An unknown man, who attempted to ford the creek on horseback, was also swept away. Trains are much delayed on account of the damage to road beds, bridges and culverts.

Floats the Hawaiian Flag.

SAN FRANCISCO, Aug. 5.—The Pacific Mail Steamship company's steamship China, will sail out of the port of San Francisco today flying the Hawaiian flag. It was decided yesterday by the officers of the company to place the big vessel, which is the crack ship of the Pacific Mail fleet under the Hawaiian flag without loss of time and it is said in maritime circles that this action on the part of the company indicates a belief among the officers of the company that annexation of the island is likely to be accomplished in the very near future.

## ALL INVITED

### To Attend the Mass Meeting to be Held Tonight.

J. R. Sovereign Will be Among the Speakers—Help for the Suffering Miners.

The mass meeting to be held at the city hall tonight is in charge of the local Trades and Labor council, who request that there be a large representation of citizens, not only laboring men, but everybody interested in the laboring people of their state.

The committee having the meeting in charge last night mailed postal cards to a large number of professional and business men of this city, asking them to be present at the meeting.

J. R. Sovereign, general master workman of the Knights of Labor, who will be among the speakers, arrived in town yesterday from the east, where he has been working in the interest of the striking miners. He said last night that he was here on a visit to his sister. He received a letter from Governor Atkinson, of West Virginia, in which he was assured by the governor that he would be protected in the right of free speech as long as no attempt was made to incite to riot. He seemed well pleased with the tone of the governor's letter.

## HORSES COMING.

### Everything Ready for the Big Race Meeting.

Stables Are Coming From All the Big Tracks in the Country—Some of the Record Breakers.

The race meeting to be given by the Fort Wayne Driving club next week promises to be the greatest in the history of the now famous track. All the grand circuit winners are entered, and there is not a big stable which will not be represented. For several days horses have been arriving from Grand Rapids, Jackson, Peoria, and other cities where races have been held. A telegram has been received from Ed Geers, driver for the Village Farm stable, owned by the Hamlins, asking Secretary Rockhill to reserve seventeen stalls for his horses. All the old record breakers except Fantasy are gone, but in their places are the big winners of the season, including The Monk, The Abbott, Dare Devil and Passing Belle. The sensational trotters of the year, Elloree, Grace Hastings, Derby Princess, Cephas, and many others are coming, to say nothing of Bumps, Frank Bogash, Heir-at-Law, Agitato, Red Seal, and the others. The track is in first-class condition, and all its records are liable to be smashed next week.

## DRAW THEIR LINE.

### Internal Revenue Employees Object to Rucker.

His Skin is Black While Theirs is White and They Decline to Serve Under Him.

ATLANTA, Ga., Oct. 5.—Henry A. Rucker, the negro recently appointed collector of internal revenue for the district of Georgia, will take the oath and assume charge of the office this afternoon, Collector Paul Trammel retiring. Today six white men in the collector's department announced that they would go out of office with Mr. Trammel declining to serve under a negro collector. These officials are T. W. Kelly, deputy collector at Atlanta; T. H. Whitsell, deputy collector at Blue Ridge; J. R. Kincaide, store keeper and guager at Blue Ridge; N. G. Otis, deputy collector at Columbus; J. W. Glass, store keeper and guager at Canton, and W. C. McClain, store keeper at guager at Jasper.

## CALLOWAY

### Will be Made President of the Lake Shore

W. H. Canniff Will be Made President of the Nickel Plate to Succeed Calloway.

NEW YORK, Aug. 5.—It is said today on high authority, that Mr. S. B. Calloway, president of the Nickel Plate, would succeed the late D. S. Caldwell as president of the Lake Shore. It was further stated that W. H. Canniff, general manager of the Lake Shore, would be elevated to the presidency of the Nickel Plate and his successor is to be P. H. Wright, at present assistant general manager of the Lake Shore.

### BARN BLAZE

Two Structures in Flames Late This Afternoon on the Southside.

At a late hour this afternoon the fire department responded to a call from the corner of Taylor and Oakley streets. Two barns owned by Mr. Miller and Mr. Stoll, of Walnut street, were in flames.

### GO ALONG WITH THE CROWD

To the city hall tonight and hear about Indiana's destitute miners.

## UP IN ARMS.

### Commission Merchants Say They Have a Grievance.

Don't Like to Have Transients Come in to Conduct Business a Short Time and Then Leave.

The impetus given to the commission business by the approaching fruit season has set afloat the announcement of several new commission houses, established for the purpose of handling the goods which find a market within the period referred to. The permanent commission men who stay in Fort Wayne from year to year do not view the situation with any great degree of equanimity and as a result of their united efforts the council will, at the next meeting, act upon an ordinance to make these transients pay a license.

Frank E. Purcell, of the commission firm of Purcell & Witte, said to a SENTINEL reporter this morning: "I notice that several new commission houses are talked of. It is the same thing we had to contend with last year. These fellows rent a room somewhere for a short time and do a commission business in peaches and other fruits. Some of them do a big business, too. They do not pay any taxes because they are only in existence a few months of the year. Legitimate merchants have had to suffer at the hands of these transients because heretofore there has been no law to reach them. An ordinance to license these kinds of dealers will be before the council at the next meeting and will probably be passed. Then we will get a fair deal."

## MAYOR SCHERER ILL.

### He Suffers With an Attack of Cholera Morbus.

Four Quacks Locked Up This Morning—No Police Court—Happenings of the Day in Police Circles.

Mayor Scherer was taken suddenly ill at his office yesterday afternoon and had to be conveyed to his home. He suffered considerably all night, and Dr. Carl Schilling was summoned to attend him. When Lieutenant Lapp called upon the mayor this morning he found the chief executive propped up in bed but not suffering any pain. The mayor expects to be able to be at his desk again tomorrow.

NOTES.

Officer Richardson locked up four quacks this morning. He bought them on market and placed them in a cell for safe keeping. They were ducks.

There was no police court this morning.

Poundmaster Tremmel picked up seventeen untagged dogs yesterday, and the canines are now at the pound.

## VICIOUS HORSE

### Almost Kicks the Life Out of Frederick Bieke.

Two Boys Have a Narrow Escape From Drowning—Boys Hurt With Accidents—Bicycle Mishaps.

Frederick Bieke, of St. Joe Township, was kicked by a horse and seriously injured last Tuesday. The animal's hoof struck him in the side, knocking him down. The ugly brute then continued to kick, and it is a miracle that Mr. Bieke escaped with his life.

CAME NEAR DROWNING.

Johnny and Harry Brumbach, of Findlay, came with their parents to visit a family on Baltes avenue, and yesterday afternoon they went to the banks of the St. Joe river, near by, to play. While wading in the water near the shore they stepped into a deep hole and would have drowned but for the timely assistance of a man who witnessed the accident. He succeeded in rescuing the boys after they had gone down the second time. It was a close call.

OTHER ACCIDENTS.

Julius Bork, of Gay street, fell and fractured her right arm yesterday.

Miss Emma Weserman, of 262 East Jefferson street, fell from her wheel and received severe cuts about the head.

William Keener, a boy living near the paper mill fell from the bridge to the stones below receiving a fracture and a dislocated elbow as well as other injuries.

### A FIRE

Would Not be as Exciting as Henry Regel's Wedding This Evening.

The boys at the central engine house are strung to a high tension of excitement today over the fact that their associate and friend, Henry Regel, will tonight become a Benedict. Visions of all kinds of wedding cake and other good things have been haunting the fire laddies ever since Henry whispered to them the secret of his proposed venture, and they have been fasting for a week in anticipation of the event. The young lady whose heart and hand is to be claimed in holy alliance this evening is Miss May Fry, an accomplished young lady who possesses the charms of beauty and of disposition that make lovely womanhood. The ceremony will be performed at the bride's home, which is directly opposite the engine house, and it will be a quiet affair. The couple will forego the wedding trip, Mr. Regel's duties as extra engineer making it difficult to take even a wedding vacation.

## HENRY J. LAPP.

### Well Known Contractor Succumbs to Consumption.

Washington Tracy, and Old Allen County Resident, Passes Away—Death of Maria Bowers—Funerals.

Henry J. Lapp, a prominent contractor, died of consumption at 6:27 o'clock last evening.

While Mr. Lapp's friends were aware of his poor health, very few of them knew of his fatal illness, which dated from Tuesday night. Although suffering with a disease that was rapidly telling on him, Mr. Lapp's energies never relaxed until last Monday. On Saturday he was actively engaged in looking after his contracting business, his last work being to confer with John B. Reuss, in whose elegant new home he had the contract for woodwork.

Henry J. Lapp was born in St. Joseph township, Allen county, April 9, 1861, and at the time of his death was thirty-six years of age. He was married April 27, 1886, to Miss Lizzie Rapp, daughter of the late George Rapp, one of the pioneers and best known farmers of this county. He leaves behind him of his immediate family, his widow and two daughters, Clara and Lily, aged respectively nine and six; one other daughter died in infancy. His father was Valentine Lapp, a well known farmer, who lived in St. Joseph township for many years and died about six years ago; his mother died at his residence about three months since. When a lad of seventeen the deceased came to Fort Wayne to learn the carpenter trade. He was an apprentice under Contractor Beverforden, one of the old timers, and graduated, so to speak, at his hands. He then entered the service of Contractor George Franke, and afterwards became a member of the firm of Henry & Lapp. About two years ago he went into business for himself, and has done a large contracting business since. His brothers are Martin, John and Valentine Lapp, the latter of whom was with him when he died. Henry Lapp, lieutenant of police, is a first cousin.

The funeral will be held Sunday afternoon from the residence, 34 Hoagland street, and later from Emmanuel's Lutheran church, of which the deceased was a member. The hour has not been set.

BODY TO BE BROUGHT HOME.

Funeral Director Will Peltier this morning received a telegram stating that the body of Donald McDonald (Arion) would arrive here some time tomorrow. Announcement will be made of the funeral.

OTHER DEATHS.

Washington Tracy, an old resident of Allen county, died suddenly Tuesday evening at the house of his son, in South Chicago. He was sixty-seven years of age and had lived for many years on Wayne Trace, just east of the city limits. Of late years he had spent most of the time with his children, who are married. Death was caused by heart disease. The remains arrived home today over the Pennsylvania, and were taken directly to the St. Paul M. E. church, where religious services were held. Interment was in the Odd Fellows' cemetery, at New Haven.

Mrs. Maria Bowers, aged seventy four years, died of a complication of diseases at the St. Joseph hospital last night. She was the widow of the late James Bowers and resided on Wilt street until her late illness began. She leaves two sons, James, of Kansas City, and William, whose residence is unknown. The remains were taken to the residence of Mrs. Labonh, 21 Pritchard street. The funeral will take place tomorrow morning at 9 o'clock from the home and later from the Cathedral.

Joseph A., son of Robert Schellhammer, died yesterday afternoon at the family residence, corner of Reed and Pontiac streets. The funeral took place this afternoon at 2 o'clock from St. Peter's Catholic church.

Grace, infant daughter of Mr. and Mrs. Oliver Thompson, died yesterday afternoon. The funeral took place at 2:30 o'clock this afternoon from the residence, 208 East Lewis street, Rev. P. J. Rice officiating.

## WANT MORE STREET.

### Pontiac Street Property Owners With a Petition.

Thoroughfare is Only Wide Enough for a Big Alley, From Webster to Calhoun Streets.

William Linsenmeyer is circulating a petition to have Pontiac street, from Webster to Calhoun street, widened fifteen feet more than its present size. Signers want it to conform with the rest of the street. The present width is not much more than is allowed for a good sized alley, and as property owners along the thoroughfare contemplate some improvements in the near future the petition is to be presented to the board of works for immediate action. William Linsenmeyer owns considerable ground which won't be affected by the change and he desires to plat it into lots. The petition will most likely be granted.

OF the children born alive, one fourth die before eleven months, one third before the twenty-third month, half before their eighth year, two-thirds of mankind die before the thirty-sixth year, three-fourths before the fifty-first year, and of about 12,000 only one survives a whole century.

THE average attendance at places of public worship in England and Wales is computed to be between 10,000,000 and 11,000,000 persons. There is a place of worship for every 500 individuals, taking the country all through, and a stated minister for every 700. About 80,000 sermons are preached every Sunday.

AN INDIANIAN writing from the Klondyke warns his friends not to emigrate until the latter part of February or the first of March. The cold weather will set in there soon and with the short supply of provisions thousands of those already there must endure great suffering and possibly starvation. The early spring is the time to leave for the Klondyke if anybody is going at all.

AN OLD housekeeper declares that but one side of the servant girl question is ever given in the press, and that great injustice is done the women help. She avers that the average servant girl, on leaving a place, invariably conveys to her new mistress a great amount of information as to the domestic life and eccentricities of the family lately employing her, omitting nothing that she can possibly think of. Some of this may be true and some of it may not be perfectly accurate, but it is all entertaining, and the system enables the women of a community to know just what is going on in every home. Yet no credit is ever given the poor girl for what she knows.

THE individual who undertakes to give advice to farmers as to the best time to sell wheat assumes a good deal of risk. The price may go up several points, and again it may drop, though present indications point to higher prices. The shrewd farmer who has wheat to sell should carefully watch the movements of the wheat market and decide for himself when to sell. Then if he should happen to miss it he will have no blame for somebody else.

FORTY steamers were chartered in one day last week to load cargoes of grain at Philadelphia, New York, Baltimore and Newport News for ports in the United Kingdom and Europe, making a day's record which, it is claimed, has never been equalled. To fill these vessels will require over 4,000,000 bushels of grain, and at least one-third of the chartered steamers will load at Philadelphia elevators, which are rapidly being made ready for the great rush this fall.

This afternoon the Fort Waynes and Toledos are fighting it out at Lakeside park. Herr and Kolb are the contending pitchers and the game is for blood. Manager Cooke is back in the game and Peck Sharp, although crippled, is holding down second base.

The handsome new gray suits arrived this morning and were distributed among the players, who donned them for the first time in today's game.

FORT WAYNE, 6; SPY RUNS, 1.

The Fort Wayne league team and the Spy Runs played an exhibition game at Lakeside park yesterday and the professionals won easily, the Spy Runs scoring their only run in the first inning. Wayne and Fitch pitched for the leaguers and Robbins was in the box for the Spy Runs, with Tom Campbell catching. Robbins was effective, but his support was ragged. Score:

INNINGS 1 2 3 4 5 6 7 8 9

Fort Wayne 0 0 1 0 0 1 1 2 1— 6

Spy Runs 1 0 0 0 0 0 0 0 0— 1

Hits—Fort Wayne, 9; Spy Runs, 7. Errors—Spy Runs, 7. Batteries—Wayne, Fitch and O'Meara; Robbins and Campbell. Earned runs—Fort Wayne, 2; Spy Runs, 1. Two-base hits—O'Meara, Herr, Gear. Sacrifice hit—Babb. First base on balls—off Wayne, 2; off Robbins, 1. Struck out—By Wayne, 2; by Fitch, 2; by Robbins, 2. Passed ball—Campbell. Double play—Cook to Campbell. Umpire—Heller. Time of game—2:30.

OTHER INTER-STATE GAMES.

NEW CASTLE, Pa., Aug. 5.—New Castle won yesterday by superior batting. Umpire Maynes hit Berry, of the Youngstowns, who called him bad names for a decision he made on a pitched ball. Timely interference of officers avoided what looked like a riot. The score:

New Castle 2 0 0 0 0 1 1 0 *— 5

Youngstown 2 0 0 0 0 0 0 1 0— 3

Hits—New Castle, 11; Youngstown, 5. Errors—New Castle, 2; Youngstown, 2. Batteries—For New Castle, Hewitt and Donovan; for Youngstown, Jordan and Zinram. Umpire—Maynes.

SPRINGFIELD, O., Aug. 5.—Springfield gave the worst exhibition of ball playing ever seen here. The score:

Dayton 0 0 0 3 5 1 1 0 *—10

Springfield 0 0 2 0 0 0 0 3 1— 6

Hits—Springfield, 11; Dayton, 11. Errors—Springfield, 8; Dayton, 2. Batteries—For Springfield, Coggswell, Herbrand and Rupert; for Dayton, Bates and Greenwald. Umpire—Keefe.

MANSFIELD, O., Aug. 5.—The reorganized Wheeling team was easy for Mansfield. Garvey, who started in to pitch for Wheeling, was overcome by the heat in the second inning and compelled to retire in favor of Campbell. The score:

Mansfield 1 2 0 7 5 0 0 0 0—[illegible]

Wheeling 0 0 0 0 0 2 5 0 0— 7

Batteries—Ely and Vetter; Garvey, Campbell and Messitt. Hits—Mansfields, 10; Wheelings, 7. Errors—Mansfields, 2; Wheelings, 5.

INTER-STATE LEAGUE.

Toledo at Fort Wayne.

New Castle at Youngstown.

Mansfield at Wheeling.

Springfield at Dayton.

OTHER GAMES.

National League—Chicago, 12; St. Louis, 13. Washington, 1; Brooklyn, 2. Cleveland, 0; Louisville, 6. Cleveland, 4; Louisville, 7. Pittsburg, 4; Cincinnati, 4. Pittsburg, 3; Cincinnati, 14.

Western League—St. Paul at Columbus, rain. Minneapolis at Detroit, wet grounds. Milwaukee, 7; Grand Rapids, 0. Indianapolis, 5; Kansas City, 4.

Western Association—Rockford, 8; Dubuque, 7. St. Joseph, 4; Des Moines, 2. Burlington at Quincy, no game. Cedar Rapids at Peoria, wet grounds.

NOTES.

Babb is playing a wonderful game at third base.

The players were all paid their salaries today.

Pitcher Campbell and Infielder Taylor, late of the Wheeling, have signed with Youngstown.

Sharp has a sore arm and a bad finger, but even then plays a better second base than most basemen in the Inter-State.

Umpire Keefe, who started out at the beginning of the season as one of the most popular of umpires appears not to be giving such good satisfaction of late.

Toledo Bee: "That Fort Wayne team plays ball all the time. With an outfielder to take Cooke's place they might get inside the cup-rain." We've got a good one to take his place.

The report that leftfielder Flick, of Dayton, was to be transferred to Wheeling is not true. Manager Armour said that one of his outfielders would probably go to Wheeling, but it would not be Flick. Louisville wanted Flick but would not put up the $700 necessary to secure him.

It is feared that Pitcher Ferguson, of Toledo, is out of the game for this season, at least. His arm is sore in the shoulder joint and ball players know that when the shoulder gets sore it is liable to be all off, unless the best care is taken. A lot of good advice, given by the Bee, is for Ferguson to go home and rest up for this season, at least. By constant care his arm can be brought back and he will be as good a pitcher as he ever was. As he is at present he has no speed, and his delivery is "peaches and cream" for the visitors.

It is possible that the Wheeling base ball club may be transferred to Canton. Frank Torreyson is now in Wheeling looking after the ball grounds at that place. It is probable that if he fails to secure possession of the ball park at Wheeling which was owned by the Herringtons and W. J. Coyle that the team will play the balance of the season out at Canton.

Toledo Bee: "Kihm should be credited with a hit Monday for the time he batted a ball so that it struck Tom Campbell, who was running from second to third. The rule is plain, but has been overlooked by the scorer for a morning paper. The rule says: 'In all cases where a base runner is retired by being hit by a batted ball the batsman should be credited with a base hit.'"

Toledo Bee: "When the big leagues are looking around for a third baseman they will not overlook Babb, the Fort Wayne infielder. Babb is playing the game of his life, is fielding like a world-beater and is hitting well. In two games he has accepted eighteen chances on third base. That's better than Bill Hassamaer is doing, for Babb is taking chances that Bill forgets."

The New Castle News says: "Peck Sharp, who plays second base for the Fort Wayne team, is one of the old timers of the diamond who seems to retain all the agility of youth, despite the advance of years. It is Peck's proud boast that he has played in more leagues than any player now living, and when he tells it he has a trunk full of pennants which were won by teams on which he played, and which were given to him as mementos because he was the best player in the league. Peck says that he has some fancy plays up his sleeve that he hasn't shaken down yet this season, but which he is liable to spring. Out in Kansas City Sharp was known as 'Quarter Bucket' Sharp, which was a take-off on his baptismal name. Gladiator, (Pete) Browning, Perry Werden and Sharp have taken turns in holding the belt for telling stories of base ball since the days that Cap Anson was learning the game in the back lots of Marshalltown, Ia. Peck insists that the reason he has lasted so long in the business is that he never goes to bed when he isn't sleepy, and that he grew to manhood before cigarettes were introduced on the market. When asked how he was keeping up with the procession this season Peck said: 'Well, I ain't the whole works, but when Peck is out of the game there seems to be a cog missing in the machinery.'"

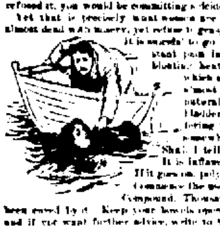
## NEGLECT IS SUICIDE.

### Plain Words From Mrs. Pinkham, Corroborated by Mrs. Charles Dunmore, That Ought to Bring Suffering Women to Their Senses.



If you were drowning and friendly hands showed a plank to you, and you refused it, you would be committing suicide!

Yet that is precisely what women are doing if they go about their homes almost dead with misery, yet refuse to grasp the kindly hand held out to them.

It is suicide to go day after day with that dull, constant pain in the region of the womb and that bloating, heat and tenderness of the abdomen, which make the weight of your clothes an almost intolerable burden to you. It is not natural to suffer so in merely emptying the bladder. Does not that special form of suffering tell you that there is inflammation somewhere?

Shall I tell you what it is?

It is inflammation of the womb!

If it goes on, polypus, or tumor, or cancer will set in. Commence the use of Lydia E. Pinkham's Vegetable Compound. Thousands of women in this condition have been cured by it. Keep your bowels open with Mrs. Pinkham's Liver Pills, and if you want further advice, write to Mrs. Pinkham at Lynn, Mass., stating freely all your symptoms. She stands ready and willing to give you the very best advice. She has given the helping hand to thousands suffering just like yourself many a thousand miles away from a physician. Her marvelous Vegetable Compound has cured many thousands of women. It can be found at any respectable drug store.

MRS. CHARLES DUNMORE, 102 Fremont St., Winter Hill, Somerville, Mass., says: "I was in pain day and night; my doctor did not seem to help me. I could not seem to find any relief until I took Lydia E. Pinkham's Vegetable Compound. I had inflammation of the womb, a bearing-down pain, and the whites very badly. The pain was so intense that I could not sleep at night. I took Lydia E. Pinkham's Vegetable Compound for eight months, and am now all right. Before that I took morphine pills for my pain, but it was a great mistake, for the relief was only momentary and the effect vile. I am so thankful to be relieved of my sufferings, for the pains I had were something terrible. I am, indeed, very grateful for the good Mrs. Pinkham's remedies have done me."

## PASSING OF THE DRUM.

### It Will Soon Disappear In Connection With Army Life.

Lieutenant Col. Marrast Perkins of the United States Marine corps writes an article entitled "The Lost of the Drums" for St. Nicholas. Lieutenant Perkins says:

I think few know that of all the time honored equipments of war which these days of military progress have left us the drum is the oldest, but, like the sword and the bayonet, the drum is fast disappearing. Its companion, the fife, hallowed by traditions of valor even in our own history, from Lexington to Gettysburg, is already gone, and another decade will still forever the inspiring martial music of the drum.

What boy has not felt his pulse thrill and his heart swell with patriotic pride and martial ardor while gazing upon the well known picture of the Revolution, the "Minutemen of 1876," forsaking the plowshare and flying to take down the old flintlock at the tocsin of war—the throbbing of the drum and the shrill screaming of the fife, sounded by two scarred veterans, bareheaded, white haired and in their shirt sleeves, marching through fields and along the roads, calling the patriots to arms!

Every New England schoolboy has read the story of Abigail and Elizabeth, the sisters of Newburyport who during the Revolution repelled alone an attack of the British by beating furiously an old drum and blowing a fife. The British troops, who were about to land, hurried back to their ships, thinking a whole army lay in ambush to repulse them.

Thus did a fife and drum drive off the enemy and save a town from pillage and ruin.

The military drum is supposed to have been introduced in Europe by the Moors and Saracens during the middle ages and was quickly adopted by armies. The drum of today differs little, and in appearance only, from the earliest form. It consists, as every boy knows, of two pieces of parchment or batter heads stretched over the ends of a hollow cylinder, and is struck with sticks. For ages this instrument has been known among savage tribes and barbaric nations, who use its weird music to accompany their religious rites, as well as for war purposes.

The tomtom of the Sioux Indian is a good example of a primitive drum.

In civilized warfare the drum has ever been connected with deeds of martial valor, and its voice is dear to the heart of the soldier who has followed its pulsing into the deadly fire of battle, or even in reviews and military parades, when rank upon rank sweep up a street keeping perfect alignment and step to the drum's inspiring beat.

It has found a place in history through the daring bravery of more than one beardless boy who has sounded at the critical moment the pas de charge or "rally" just in time to turn the tide of battle.

Johnny Clem, the "drummer boy of Shiloh," who beat the rally without orders when his regiment had broken, panic stricken, and thus helped to save the day, was made an officer for his heroism and is now a major in the United States army.

In fable, song and story the drum has ever kept pace with the most valiant deeds of men. Rudyard Kipling's pathetic little story of "The Drums of the Fore and Aft," two courageous drummer boys who at the cost of their own lives led the charge and saved the honor of their regiment when routed by the Afghans, tells of a deed such as is to be found in history as well as in fiction. More than once has the drum claimed a place in the front rank of storming battalions and led desperate charges in the van of a victorious army.

What wonder, then, that we look sorrowfully into the future, when battling will no longer be inspired by the "war drum's throb," for we know that the advance of military science, with all its death dealing machine guns, magazine rifles and its smokeless powder, will surely sound the knell of the drum.

### Reed's Parliamentary Rules.

The demand for "Reed's Parliamentary Rules" has been sufficient to call for a new edition. In answer to some inquiries Speaker Reed said: "The sales of the book have been satisfactory, considering the fact that it was published at the beginning of the recent hard times, and also that its scope and purpose were not generally or well understood. A great many persons formed an idea that it related simply to the rules and practice of the house of representatives, whereas it was designed to be and is a treatise on [illegible] parliamentary law and practice. That is what I think is beginning to be better understood than it was. At any rate I have no [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible]."

## CANADA'S RAILROAD PLAN.

### Project of Building a Railroad to the Goldfields.

N. A. [illegible], of the [illegible], who was in [illegible] [illegible] [illegible], gave some interesting [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] [illegible] into the [illegible] [illegible].

"While at Ottawa [illegible] [illegible] last year," [illegible] [illegible] [illegible] seriously the possibility of securing aid from the Canadian government to build a railway into that district. We secured as reliable data as we could and [illegible] [illegible] the same to Ottawa. [illegible] an appropriation of [illegible] was passed by the parliament and surveyors were ordered to take the field [illegible].

"There are two practical routes by which this country might be reached by a railway. One of these is from a point on the Canadian Pacific, the other is from Dyea. As far as we were able to ascertain, neither presents many difficulties. That from Dyea would be the shorter for the reason that only some 80 miles of road would have to be built, the rest of the route to the mines being by means of the river. Of course, during the winter season this route would be closed as far as the river is concerned. This road would do away with the difficulties of Chilkat pass. It naturally would be a closer means of communication with San Francisco, and for that reason is not likely to be favored by the Canadian government.

"The other route is about 500 miles longer, but, being entirely within the Dominion of Canada, is likely to receive earnest consideration at the hands of the government.

"The moneyed men of that section are willing to assist any enterprise of this character which will tend to develop the country. The attention of the world has been called to our country, and the stories [illegible] [illegible] fairy tales have been written about its wealth is being quickly dispelled."—New York Journal.

PUTTING OUT A FIRE IN AFRICA.

At this moment thousands of men are standing at the cross roads of life. Death in the guise of a foolish ambition urges them to take one road, while health and happiness in the form of wife and babies urge them to take the other. For the sake of a few added dollars will they continue in overwork and neglect the commonest precautions for the preservation of health, or will they listen to love and reason and draw back before it is too late? A man may do almost any amount of good hard work if he will take care of his health and when he gets out of sorts will take the right remedy. The great blood maker, flesh builder and nerve tonic is Dr. Pierce's Golden Medical Discovery. It is the hard worker's medicine. It corrects all disorders of the digestion, invigorates the liver, purifies the blood and tones and steadies the nerves. It makes the appetite hearty and brings refreshing sleep. Thousands of hard workers owe their lives to it and have said so over their signatures. Druggists sell it and no substitutes are foisted.

"I was taken with [illegible] in my back and went to the doctor," writes Mrs. [illegible], of [illegible] Co., Mich. "He said he could not cure me. He gave me medicine to ease me but the disease spread all over my body. I took two bottles of the 'Golden Medical Discovery' and two of the 'Favorite Prescription' and was entirely cured. I have a boy three weeks old. I was helpless two or three months before confinement but after taking the 'Favorite Prescription' I was able to do my washing three days before I was confined."

There is scarcely a known form of illhealth that constipation will not cause or aggravate. Dr. Pierce's Pleasant Pellets are an unfailing cure for constipation. One little "Pellet" is a gentle laxative.

### Shop Facilities of the Knitting Mills Too Small.

Building to be Increased to Double Its Size and Working Force to be Added To.

The business of the Wayne Knitting mills having outgrown its shop facilities, the stockholders have decided to enlarge the plant and probably to increase the capital stock of the concern. Wilhelm Spies, John C. Marin and John F. Nixon, of New York, who are said to be representatives of unlimited capital, have been here several days consulting with the local stockholders and officers with a view of taking stock in the corporation, providing the capital stock is increased to any considerable extent. These gentlemen have looked closely into the affairs of the Wayne Knitting mills and are said to be greatly impressed with the magnitude of its business and the prospects of its future growth. They are here now ready and anxious to invest and a Sentinel reporter was informed by one of the stockholders that the new deal would in all probability be effected this week. In case of its consummation the works will be enlarged immediately and the force of workmen increased.

THE FIRST FEMALE PASSENGER.

Goshen Times: "Mrs. Nancy Julian, of Warsaw, has received a pass to New York over the Pennsylvania railroad from the president of that company. The pass was issued because Mrs. Julian was the first woman to travel on a railroad west of the Allegheny mountains. She made her interesting trip nearly sixty years ago. She was living in New York and came to see her husband, who had migrated west and settled on a farm in a wilderness where Goshen, Ind., now stands. Mrs. Julian walked to Albany and went by water to Detroit, and from there she went to Ypsilanti by rail. The rest of her trip was made by stage and wagon. The trip from Detroit to Ypsilanti was the first railroad ride ever taken by a woman in the west. Mrs. Julian is now eighty three years old and will use her pass to visit her daughter in New York."

TO MAKE RAILWAY TRAVEL EASIER.

Investigations have been made by the Franklin institute, of Philadelphia, for the purpose of determining the quantity of the so-called "hammer blows, centrifugal lifts and tangential throw" of locomotive driving wheels in use on American railways. It appears that the unequal balancing of locomotives is the cause of the thumping and jarring which bring such discomfort to passengers and so much injury to railway property. It is the hammer blows which bend, break or spread rails, which jar the road beds, tear out fastenings, fracture bolts, shatter bridges and cause so much destruction generally, involving also frequent railway accidents of a serious character. In the city streets, too, the hammer blows loosen the asphalt in which the railways are imbedded, causing much unsightliness and constant expense for repair and reconstruction.

PENNSYLVANIA STATISTICS.

"The man who makes the figures for the Pennsylvania Railroad company has sent some of them out. In analyzing the report of the lines east of Pittsburg and Erie, he calls attention to the following:

There were used during the year 47,170 tons of steel rails or 5⅓ tons an hour, 129 tons a day, day and night, including Sundays.

The 1,735,367 cross ties used during the year equaled 4,753 a day, 198 an hour, 33-10 ties a minute.

The 220 engines built during the year equaled four each week or one every fifteen working hours.

The 4,054 cars built during the year equaled 1 1-3 every working hour.

The 23,742,[illegible] tons of coal hauled over the Pennsylvania division only would cover the city of Philadelphia from Vine street to South street, and between the two rivers 17.07 feet deep, or all of Philadelphia three and one fourth inches deep. This amount of coal loaded in cars thirty feet long and thirty tons to the car would require 790,000 cars, occupying 23,760,000 lineal feet of track, equaling 4,501 miles, or a train reaching from San Francisco to a point 1,000 miles east of Boston.

The 13,812 miles of track under Pennsylvania railroad management is equal to a four track railroad from New York to San Francisco (3,269 miles) and have 735 miles left for sidings.

The increase of trackage during the year east of Pittsburg and Erie averaged over one mile for each working day.

BOUGHT A GAS ENGINE.

The Citizens Electric Light company, of Decatur, Ind., has placed an order with the Bass Foundry and Machine works for a Corliss engine of the Bass improved type. The cylinder will be eighteen by thirty-six inches and the engine under ordinary pressure of steam will develope about 175 horse power. The contract also calls for some shafting and other paraphernalia necessary to a steam plant. Work upon the engine will be commenced at once and pushed rapidly to completion.

FIREMAN STRICKEN DOWN.

Jacob Wilson is lying in a precarious condition at St. Joseph hospital. Late yesterday afternoon he was stricken with paralysis while walking on Wayne street, near Harrison, and when assistance reached him he had become unconscious. Mr. Wilson was for a number of years employed on the Pittsburg road as a fireman, but in 1894 he was "let out" for alleged participation in the strike and since that time he has been engaged in other occupations. He had secured the position of engineer at the stone yards for Stewart & Co., and was to assume the duties of that office as soon as the steam plant now in course of erection was ready for operation. Some time before his dismissal from the Pennsylvania service, Mr. Wilson had been promoted from fireman to engineer, but when traffic fell off and it became necessary to reduce the number of engineers, he was put back to firing and continued in that capacity until the end of his term of service with the company.

MINOR MENTION.

V. Shroyer, an employe in the Pittsburg iron yards, is sick and off duty.

George Freslenburg has taken a position as brakeman on the Nickel Plate road.

Born, to Mr. and Mrs. John Wells—a son. The father is a Nickel Plate fireman.

C. Bitner is in South Whitley visiting his parents. He is a Nickel Plate brakeman.

C. Wyborn, tinner employed in the east car shops, is off duty on account of sickness.

J. Karkoff, a Pittsburg car inspector, is enjoying a week's vacation with friends in Ohio.

C. Vandeman, Nickel Plate brakeman, who had been on the sick list, took his place on the road yesterday.

C. Downey, Nickel Plate brakeman, is nursing a lame hand and will be unable to go out on his run for several days.

Miss Fredericka Schotmeyer has returned to the city after a three weeks absence and tonight will resume her place in the Wabash ticket office.

Sickness confines John Murphy, the Pittsburg painter, to his home.

Master Mechanic Fitzpatrick is in Chicago today, looking after railway business.

Jacob Hilgeman left this morning for Titusville, Pa., to set up some electrical machinery.

The Wabash had a good run of freight trains eastbound last night, there being ten of them through this city.

Master Mechanic C. H. Doebler, of the Wabash, is out on an inspection tour of the eastern division this week.

D. C. Copperstone, assistant auditor of the Pennsylvania lines west of Pittsburg, was in the city today on railway business.

The Chicago and Eastern Illinois is burning wood at its pumping stations and other places where stationary engines are used, to save coal.

Engineer George Quidore and Fireman C. Horner, who have a local run on the west end of the Nickel Plate, are taking a few days' rest.

The Pennsylvania base ball club left on No. 39 at noon today for Plymouth, where it is playing this afternoon with the crack team of that city.

E. Repine, a Pittsburg car repairer, has taken a few days leave of absence to make the acquaintance of a new son, who put in an appearance yesterday.

William Driftmeyer, Ben Petitt and Fred Crawford are engaged in wiring the new house of Superintendent J. J. Wood, on East Main street, for electric lights.

The Wagner Palace Car company now operates on railways in twenty states. In the year ending June 30 its cars earned $5,[illegible],[illegible], and its net earnings were $1,474,333.

The steam hammer in the Pittsburg shops operated by Frank Opatz and his gang is out of repair and the men are taking a lay off until the machine can be repaired.

Joseph Wood, fourth vice-president of the Pennsylvania, has been elected president of the Cincinnati and Newport Bridge company, in place of John E. Davidson, who recently died.

The New York Central has decided to establish cheap cab service from its station in New York to any part of the city similar to that established a few weeks ago by the Pennsylvania.

The bureau established a few months ago to sell the 5,000 mile tickets will pass out of existence on August 15. Not enough tickets have been sold to pay the expense of the bureau.

The Illinois Central has begun the eliminating of all grade crossings of railroads and highways where conditions will permit, their trade together under or over the railway or highway.

A number of the larger machine tool companies are having cars built to carry their heavy machinery, not depending on the railroads to furnish cars. Some of these cars are built to carry 80,000 pounds.

Mrs. William Dryer, wife of the Pittsburg blacksmith, is a victim of rheumatism and she is preparing for a visit to the Larwill sanitarium in the hope that the treatment will be beneficial.

It seems well settled that the Chicago, Indiana and Eastern is to be extended from Muncie to Richmond, and a belief prevails that the Panhandle company knows where the money comes from to extend the line.

The present week has been a busy one at the Wabash machine shops and the following engines were turned out after repairs: Nos. 566, 51, 71, 43, 421 and 267. Those taken in for repairs are Nos. 170, 437, 214 and 10.

Gruber & Lengs, proprietors of the National Boiler and Sheet Iron works, have been awarded the contract to build a fifty horse power boiler with complete steam outfit for the Wilkens Bros.' Packing company, this city.

O. L. Shoaff, Nickel Plate passenger fireman, was taken sick while out on his run last Tuesday and had to be relieved from duty before he could complete his trip. C. Sender, freight fireman on the same road, is also on the sick list.

The road projected from Benton Harbor to Columbus, Ohio, is completed from Benton Harbor to Buchanan, and on August 4 regular train service will be established. The right of way is now being secured between Buchanan and Toledo.

Superintendent E. A. Barnes, of the Bass & McDonald Cycle works, has gotten out an Elektron tandem built for ladies' use, which will no doubt prove to be a good seller. He has a sample wheel now at the electric works.

A number of employes of the Bass blacksmith shop laid off today to attend the funeral of the late Mrs. Charles Hoss. The bereaved husband was formerly employed in the shop, though he is now associated with Epps in the livery business.

David Sloan has been appointed chief engineer of the Illinois Central, succeeding J. F. Wallace, resigned. Mr. Sloan has for some years been assistant engineer of the company. His authority will also cover the Yazoo and Missippi Valley road.

The Haskell & Barker car works at Michigan City will increase the output of the plant to thirty cars daily. The working force is being gradually increased, and the monthly pay roll has reached $30,000. A large addition is being made to the works.

W. O. Hughart, A. L. French and O. P. Hughart, railway men from Grand Rapids, Mich., are in the city today on railway business. They hired a livery rig this morning and drove out to Huntertown and thence to LaOtto, returning here about 3 o'clock.

The collection of timber specimens in the Pittsburg car shops has grown to such proportions that the handsome cabinet built a year ago is too small and a larger one is now being constructed. This collection of timber includes every variety used in the construction of cars, from the finest palace to the most common freight car.

John D. Rhinemeyer, of the Pittsburg blacksmith shop, has as his guests his daughter and her husband, Mr. and Mrs. Jack Hawkins, of Chicago. The visitors made the journey down from Chicago on their wheels, leaving that city Monday morning and arriving here Tuesday evening. The distance by wagon road from Chicago to Fort Wayne is 152 miles, a good two days ride.

Sion S. Bass post, G. A. R., at a meeting last evening decided to make the journey to and from Buffalo over the Nickel Plate, as that route under the circumstances seemed to be the best one. The announcement was made at the meeting also that free quarters had been assigned the post on Emerson avenue, in camp Jewett, and that ten Sibley tents had been provided for the purpose.

Eighteen months ago the Lehigh Valley management established a fund for superannuated and disabled employes, to be maintained with money received from employes and their families traveling over the road at half a cent per mile. In eighteen months $15,000 has been realized from that source and at present fifteen superannuated employes are cared for at the expense of this fund. So satisfactory has the work in this direction been that a number of other roads will adopt the same plan.

Engineers J. C. Lynch, D. T. McFee, D. T. Grubb, B. Baughman, M. Cain and William Haenel and Firemen H. Moser, John Lee, A. Lawson, Frank Mills, John Tracey, M. Grubb and John Sanborn were detailed to go to Fostoria this morning with their engines to receive and haul seven train loads of Niagara Falls excursionists on their way east. The party came from the towns and villages along the lines of the Lake Erie and Western road in Illinois, Indiana and Ohio.

DEAFNESS CANNOT BE CURED

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

HIRONS' VEGETONE.

It Can be Procured at Your Druggists.

Use Hirons' Double Treatment for Catarrh and Hay Fever.

Use Hirons' New Asthma and Cough Cure for Asthma, Bronchitis, Pneumonia, Coughs and Colds, Throat and Lung Troubles.

Vegetone is purely vegetable in its composition. It is a reliable and permanent cure for diseases of the liver and kidneys, constipation, chills, malarial fever, loss of appetite, and a sure and effectual cure for headache and dyspepsia.

Vegetone acts by giving tone to the stomach, strengthening the liver and kidneys, and assists these most important organs in throwing off the impurities in the blood. Every person, in the spring of the year, needs a good, safe tonic for the replenishing of the system after a winter of inactivity, and Vegetone will produce the desired effects, being purely vegetable and a mild, pleasant laxative, thus throwing off the bile from the stomach, producing new vigor.

A Hay Fever Victim Made Happy.

The Hirons Medicine Co., Fort Wayne, Ind.:

GENTLEMEN:—I have been afflicted with Hay Fever in its most malignant form for years. The first attack would appear in June. During August and September my sufferings were intense. Water would run from my eyes and nose, the paroxysms of sneezing were uncontrollable, and I had terrible burning pains in my head. I learned of your Double Treatment for Catarrh and Hay Fever and procured it at once. After having used three bottles of the remedies I was entirely cured. I heartily endorse your valuable medicine, and advise all Hay Fever sufferers to give it a trial. (Signed.)

CATARRH.

What the Resident Manager of the Chicago Newspaper Union has to Say.

The Hirons Medicine Company, Fort Wayne, Ind.:

GENTLEMEN:—Your Mr. A. R. Hirons persuaded me to give your Double Treatment for catarrh a trial, and after having used it about 30 days, I can honestly say that the results have been very satisfactory. I have been a sufferer from the disease since childhood, and was so bad at times that the membrane would bleed constantly. By the use of your medicine I have stopped the bleeding, my head is greatly relieved, and I have no more difficulty with my breathing. Yours truly

CHARLES D. TILLO.

A Word From Charles Vagerlehner, the Electrician.

DEAR SIRS:—I have had a bad case of catarrh for 14 years. There was a constant dripping of mucous into my throat. Every morning my nose, head and throat would be filled up. After a terrible siege of trying to remove the mucous I would become so sick that it was with difficulty that I could eat my breakfast. I had no appetite. The disease developed into bronchitis and dyspepsia. I used of your Double Treatment for Catarrh, and after having used your remedies for a short time, I can cheerfully say that now my appetite is good, I have no more trouble with indigestion, my throat is well, and my general health has not been as good for years.

(Signed)

ASTHMA.

Testimonial From Ex-Judge of the Superior Court of Allen County.

Hirons Medicine Co., Room 2, Schmitz Block, City.

Having been a great sufferer from that most distressing disease, Asthma, and having used your Asthma remedy for the last few months, I can certify very cheerfully, that it has afforded me great relief, and I feel confident that in the majority of cases, will accomplish a permanent cure.

Respectfully yours,
A. A. CHAPIN.

Hemorrhage of the Lungs Cured.

Miss Anna Schoeph, who resides at 102 W. Superior St., says: "I take great pleasure in signing the following statement: All my life I have been afflicted with a bronchial cough. A year ago I had a hemorrhage of the lungs. Since that time for months I have been troubled with hemorrhages. I was advised by a friend to use your New Asthma and Cough Cure. I have taken four bottles of the remedy. I have no more soreness in my lungs and the hemorrhages have ceased. I cannot say enough in the praise of your medicine.

(Signed,) ANNA SCHOEPH.

Had Asthma for Twenty Years.

The Hirons Medical Company, Room 2 Schmitz Block, Fort Wayne, Ind.

Dear Sirs:—I had Asthma for twenty years. I treated with physicians in St. Louis and in other cities, and have used many remedies, but never received any relief whatever until I commenced the use of your New Asthma and Cough Cure. Before I had used one bottle I received great relief, and after having used four bottles I am entirely cured. I am happy to recommend your remedy to all who are suffering from Asthma. May the Lord bless you and your wonderful medicine.

(Signed,) MARY HUFFORD,
Mulvane, Kansas.

Price of all Hirons' remedies $1.00 per bottle. Six bottles for $5.00.

## At the Grand Canyon of the Yellowstone.

"Where the road turns to the left at Grand View, walk out over the salient of rock at the angle itself, sit down on the farthest chimney shaft, over rocks naturally white, but now blackened by weathering. If possible, go there in the morning or in the latter part of the afternoon. At noontime the light is too strong, and the details of the canyon are smothered, and the individuality of the walls killed. But with a soft morning or afternoon light every detail of one or the other of the walls leaps out from the general mass as if instinct with life. And what a wonderful sea it is that lies beneath and beyond us. A painted sea, not of water but of rock. And such painting! Try to distinguish the decided colors and their infinite variations. The most wonderful part of it is the rare blending, where one fades into another, and yet thou canst detect neither the beginning nor the ending."

The above is taken from "Wonderland 97," a new tourist book that tells all about Yellowstone Park.

"A climb up Electric Peak; a ride over Mount Everts; a trip to Yancey's; paddling about Yellowstone Lake; camping out down at Two Ocean Pass; a ride into the Hoodoo country; an excursion down the Madison to Riverside—all these can be made from some one of the hotels as a rendezvous, and take my word for it you will be surprised at the results.

"Make up a party of congenial spirits for vacation time in 1897 and go out to Yellowstone Park and see how much of the 3,344 square miles can be seen before you return. Spend the heated summer season at hotels where the temperature and altitude will allow genuine comfort and recreation."

A. W. Cotter, secretary and treasurer of the Kirk Young manufacturing company, Toledo, Ohio, was in the city today on business with the Old Fort Manufacturing company.

A basket picnic was given today at the farm residence of Mr. and Mrs. Rodwell, two miles north of the city, by the Sunday school of the Grace Reformed church. A large crowd attended.

The venerable Frederick Stellhorn, father of County Commissioner Stellhorn, is very low. He submitted to an operation yesterday. He rallied some but the outcome cannot be predicted for a day or two, owing to the patient's advanced age.

Charles Thurman, who was formerly connected with the county treasurer's office, is now a full fledged florist. He has six fine greenhouses on several lots in Vesey's addition near the Riedmiller grove, where he is cultivating many varieties of flowers. He will soon place his goods on the market.

## THE COURTS.

### The Commissioners Today Considered Road Business.

Spy Run Will be Widened—Henry Gross Arrested But Wolford Got Away—Notes.

The county commissioners today considered the remonstrance presented against the widening of Spy Run avenue. The remonstrators asked for big damages and in consequence the commissioners will appoint reviewers to determine damages. A. J. Glutting and Herman Michael will be two of the reviewers, but the third has not been selected.

A petition filed by Alphous McMadden and many others asking for the opening of a road in Eel River township was also considered and the commissioners decided to appoint viewers, but they have not been selected.

Notes.

Deputy Sheriff Gladieux returned last night with Henry Gross, one of the alleged chicken thieves, but Wolford had skipped when he reached Churubusco. Gross was found in a haymow, where he was hiding. Justice Bullerman today bound him over in the sum of $200.

County Commissioners Ferguson and Baker, County Auditor Bohilya and Architect Tolan will go to Chicago Sunday night, and after a consultation with the expert engineers will proceed to Bedford, Ind., to inspect the stone to be used in the new court house. This is simply to see and examine the character of the stone before it is shipped, as the material is still subject to test in this city. Mr. Stellhorn will go with the board if his father's health will permit it.

## HE MAY BE SHORT.

Suspicious Points to John Madden as a Defaulter.

Redding, Cal., Aug. 5.—John Madden, treasurer of Modoc county, disappeared two weeks ago and District Attorney Baker, believing Madden to be a defaulter for at least $35,000, has asked the board of supervisors to declare the office vacant and appoint a new treasurer. The funds of the county were deposited in the bank at Sacramento and checks drawn in payment of county warrants have been returned unpaid for lack of funds.
